

Rozzano Valleambrosia: Site Capabilities Overview

Curia's site in Rozzano Valleambrosia -Italy, is specialized in manufacturing Monobactam Active Pharmaceutical Substances by Chemical Synthesis

www.curiaglobal.com/small-molecule/

SITE EXPERTISE

Monobactam synthesis

» Dedicated facility for Monobactams | Advanced process controls | Decades of manufacturing Aztreonam

CAPABILITIES

18.5 m3 reaction Volume

FDA and AIFA inspected

Reaction temperature in the range of ~- 50°C to 200°C

28+ experts

Reactors from 30 to 3000 L (glass, SS & GL)

Cryogenic reactions in two reactors
